

The Arkansas Energy Education Foundation (AEEF) is a 501(c)(3) entity. The foundation's education and outreach endeavors help us spread the "good news" about our industry in Arkansas.

AEEF funds are used to get our message to students and educators through Arkansas Energy Rocks! The foundation is also involved in sharing our story with civic groups and organizations. In addition, AEEF supports the Arkansas STEPS Network, which meets monthly to inform and educate oil and gas field workers about health, safety and environmental issues.

To sustain and strengthen our work, **we need your help.** As a member of the state's oil and natural gas production community, you recognize the need to share with others the importance of who we are and what we do to help meet energy demands on the state, national and global levels. Please demonstrate your commitment by making a 100-percent-tax-deductible contribution to the AEEF.

Please Support AEEF Outreach and Education Programs
